Abstract

Community service is integrated with the online Community Service Program of Sultan Ageng Tirtayasa University. Which aims to increase the attractiveness of tourists to come to tourism in Wewengkon Adat Kesepuhan Citorek. There are natural attractions, namely Mount Luhur (The Country above the Clouds), Mount Keneng and Strawberry Gardens. The attractiveness of tourists in the tourism sector must of course be improved so that the economy of the surrounding community recovers, therefore a strategy is needed that can attract tourists to come to the tour, many facilities must be added such as photo spots, camping, typical food of Wewengkon Adat Kesepuhan Citorek and also road infrastructure improvement. To introduce tourism in the Kesepuhan Citorek Traditional Wewengkon, we can promote it through existing social media, such as YouTube, Facebook, Instagram, Twitter and others. As well as making a tourist Vlog Video as one of the activities included in the main program in the field of governance carried out by Community Service Program students group 4 Citorek Sabrang Village

Introduction

Administratively, Kasepuhan Citorek is included in the Cibeber District, Lebak Regency, Banten Province. To get to the place, Serang-Pandeglang-Rangkasbitung-Gajrug-Citorek. The road conditions on this route are quite good and comfortable, except for Gajrug to Citorek which is about 35 kilometers or the equivalent of 3 hours drive. Many climbs and descents are quite sharp, but offer a natural view of the mountains that are so charming.

The location of Kasepuhan Citorek is in a hilly area which covers an area of 7,416 hectares. This area is the customary territory of Kasepuhan Citorek, which includes four villages, namely East Citorek Village, West Citorek Village, Central Citorek Village and the whole is located in East Citorek village, precisely in Guradog Village.

The tourist village is one of the programs to attract tourists to come to the place, the tourist village itself is expected to improve the economy of the surrounding community and village income. The village that will be the target of the group 4 KKM program itself is Citorek Sabrang Village which is located in Cibeber District, Lebak Regency, Banten Province.

The tourist village been formated form is influenced by the local communities participation and from that the tourism would develop and be known by many people. If the surrounding community is indifferent to the tour, it will be difficult to find tourists to come to these tourist attractions. Citorek village itself not only has natural tourism, but has a very distinctive culture, namely Citorek village itself is a traditional village.

The village where the group 4 KKM is located is a traditional village where the existing customs are still very strong and well preserved. Even the existence of tourism does not affect existing customs where tourism is meant to be in the form of nature, for example, the most famous is a country above the clouds, this tourism place has started to boom in 2018 until now, followed by the existence of Gunung Keneng tourist attractions and the most recent the strawberry garden.

In addition, there is also a historical tour namely Punden Berundak Cibedug, which people rarely know about because it has inadequate road access.

From The Student's role by taking apart to developing the region needs to had a creative ideas by using of the existing technology. Students themselves are agents of change which they had to taking apart an agent who can bring positive changes to the village, of course, a positive role.

Implementation Method

The stages of activities carried out in this service are as follows:

1) Preparation Stage
   Visited Wewengkon Adat Kasepuhan Citorek and also asked the head of the Citorek Sabrang village for permission and communicated what activities would be carried out.

2) Implementation Stage
   Visited tours in Citorek and making videos to post to Youtube KKM group 4 Citorek Sabrang Village.

3) Evaluation Stage
   The evaluation was carried out by asking the response of the village head, residents and Youtube users about the video.

Result and Discussion
Covid 19 has changed various patterns of people's lives ranging from work, education, socio-culture, economy, health, tourism and many more. Therefore, the ONLINE THEMATIC KKM organized by Sultan Ageng Tirtayasa University has a creative theme of developing the region through the use of technology. All of this is based on the current Covid condition where technology is very influential on all activities carried out by the community. Therefore, in introducing a tour at this time, of course, the use of technology is an effective choice, such as making travel vlog videos.

Conclusion

The KKM Activities (Student Work Lecture) at Sultan Ageng Tirtayasa University had been held on July 16 – August 18, 2021, and will be conducted by long distance activities (online) due to the COVID-19 pandemic and students are required to be creative in using existing technology.

In making their own vlog video, our group analyzed all the potentials and needs in the 3 tours (mountain sublime, mount keneng and strawberry garden) all of this was done to find out the next steps in order to increase the attractiveness of tourists to come to tourist attractions in Wewengkon Adat Kesepuhan Citorek.

The purpose of making this vlog video is to introduce and attract tourists to visit and joy the tours at the Kesepuhan Citorek Customary Wewengkon after Covid. We using YouTube as a media tourism promotion as the only one media could attract and affect the tourist. KKM group 4 choose a vlog video to introduce tourism in the Kesepuhan Citorek Customary Wewengkon because Youtube and Instagram are easily accessible by anyone.
